

Ying Wa School Campus Improvement Project
Naming and Acknowledgement of the New Building – Sports & Music Complex
(Approved by Ying Wa School Management Committee on 15 March 2016)

Background

Ying Wa has become a DSS school since September 2008. The school has been providing quality education and different kinds of learning experiences to our students over the years. It is highly favored by the public and there are thousands of applications for places every year.

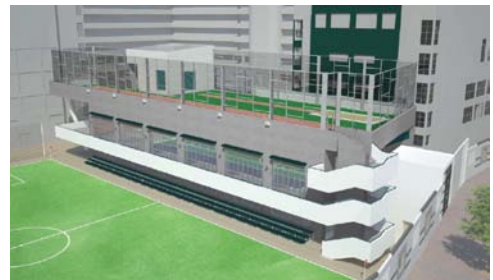

As a DSS school, Ying Wa possesses extra resources from the school fee and is granted the flexibility to utilize the resources in order to provide more diverse and meaningful learning experiences. After thorough discussion in the School Management Committee in the past 3 years, with the strong support from the Parent Teacher Associations of both the Primary Section and the College, it has been decided that a Sports and Music Complex will be built in the school premises.

The Sports and Music Complex is going to be a great addition to the campus and will constitute an extra avenue to create an even more conducive and vibrant school environment for our students and the whole school community upon its completion. With such school needs in mind, fundraising initiatives have been kick-started for this building project.

Highlights of the Sports and Music Complex

An indoor 25-metre swimming pool with 5 lanes will be constructed at which the spectator stands are currently located. The football pitch will be slightly moved in order to provide enough space for the building of the swimming pool. Upon the completion of the construction work, the use of the football pitch will be resumed. The ground floor of the Complex will consist of an Orchestral Practice Room with a floor area of over 2300 square feet while the Indoor Swimming Pool will be situated on the first floor. In addition, the roof area will be utilised for athletic training. A 50-metre long running track will also be available.

The construction work of the Sports and Music Complex has commenced in early July last year. It is expected that the Complex will be open in 2017.

Fundraising – Naming and Acknowledgement

The fundraising target is 10 million dollars with due consideration of the expenditure to be incurred for the construction, operation and long-term maintenance of the Complex, in particular the swimming pool – costs directly attributed to the project. The projected aggregate costs amount to 85 million dollars approximately as at now. There will possibly be additional expenditure incurred such as variation orders. Operation costs covering water and electricity costs as well as expenses for hiring qualified lifeguards will also be incurred. It is thus very evident that an enormous amount of school resources have to be earmarked for the project. Although the school will be in a healthy financial position in the years to come, the various facets of sustainable school development necessitate prudent use of normal income; therefore, the building project should not pose any financial burden on the school and fundraising for the project is highly necessary.

To recognize donors' generous support, 2 types of donations for facility naming and acknowledgement are proposed as follows:
